## CIFTIS · Introduction

---

To boost the international competitiveness of China's service sector and trade in services, and allow their full play in accelerating economic transformation, China (Beijing) International Fair for Trade in Services (CIFTIS) inaugurated in the year of 2012. It is approved by the State Council, and co-hosted by Ministry of Commerce of the PRC (MOFCOM) and the People's Government of Beijing Municipality, with the World Trade Organization, United Nations Conference on Trade and Development and Organisation for Economic Co-operation and Development as its permanent supporters. Since 2019, China (Beijing) International Fair for Trade in Services has been renamed China International Fair for Trade in Services (shortened remained as CIFTIS), and is held in Beijing annually. As China's economic development ushers in a new phase, CIFTIS also gained its momentum.

CIFTIS has been successfully held for 7 sessions and it is the leading largest comprehensive fair for trade in services in China and across the world. It is one of the three major exhibitions, together with China Import and Export Fair (Canton fair) and China International Import Expo (CIIE), that constitute a comprehensive system to enhance China's cooperation with and openness towards the rest of the world. The three fairs are a platform to showcase "China Services", "China Manufacturing", potential for import, and advantages for export. The Chinese government attaches great importance to CIFTIS, which is participated by state leaders every year.

In 2020, President Xi Jinping addressed the Global Trade in Services Summit

## CIFTIS · Introduction

---

of CIFTIS, and made a three-point proposal to work together to foster an open and inclusive environment for cooperation, to unleash the power of innovation in driving cooperation forward, and to promote mutually beneficial cooperation. He also proclaimed that China would support Beijing in building the “Two Zones”: the Integrated National Demonstration Zone for Greater Openness in the Service Sector and China (Beijing) Pilot Free Trade Zone. This move has demonstrated China’s confidence and resolve to open up wider to the world, and injected new impetus for global economic recovery and the prosperity of trade in services.

Themed “Towards Digital Future and Service Driven Development”, the 2021 CIFTIS will be held in China National Convention Center(CNCC) and Shougang Park from September 2 to September 7. The year 2021 marks the 100th anniversary of the founding of the CPC, and the first year of the 14th Five-Year Plan in which China will advance towards the Second Centenary Goal on its new journey to become a fully modern socialist country. Bearing those in mind, as the only comprehensive exhibition for trade in services worldwide this year, the 2021 CIFTIS will build an international platform for the exhibition, communication, negotiation and cooperation of trade in services. Especially, the Fair will strive to establish itself as the bellwether of global trade in services, and set up a new platform for further opening-up and extensive exchanges. The CIFTIS is expected to be a new growth driver for international trade and world economy, and also a new pathway towards sound global economic governance

## CIFTIS · Introduction

---

and a community with a shared future for mankind. Looking forward, CIFTIS will shape new development patterns, support higher-level opening up, promote openness and cooperation for global service sector and trade in services, and serve its role in building a community with a shared future for mankind.

The 2021 CIFTIS is marked with 4 sparkling features. The first is the focus on the digital economy, which is demonstrated not only in the diction of the theme title, but also in its settings and arrangements. Based on elements like digital experience, digital services and digital governance, CIFTIS sets up a special area for digital services to exhibit the newest breakthroughs, achievements, and application scenarios in this sector. The second feature is the design of exhibition clusters. This year, apart from the CNCC, Shougang Park, as the Beijing landmark of city rejuvenation, is used for the first time as the thematic venue. The subtle blend of Shougang's industrial elements and CNCC's Olympic ingredients contribute to the distinctive design of the CIFTIS exhibition clusters. Thirdly, the 2021 CIFTIS enjoys an improved marketized and professional level. The Capital Exhibition Group was founded as the operator of CIFTIS, and is featured by a more professional and market-oriented approach in advertising, organizing events, bringing in investment, and attracting sponsors and exhibitors. Lastly, the 2021 CIFTIS is a “never-ending fair”. It continued to be held both online and offline, and the digital platform of CIFTIS is optimized to provide exhibitors with services for product displays, program releases and online negotiations, etc., so to ensure CIFTIS will be held on a regular basis.

## CIFTIS · Introduction

---

The 2021 CIFTIS will hold 6 types of activities: Global Trade in Services Summit, forums and conferences, exhibitions and displays, promotional business talks, achievement releases, and side events. The Summit evinces China's confidence and determination to further openness. International dignitaries and leaders of international organizations will participate in the Summit online for policy exchange and experience-sharing, and work together to enable global trade in services to thrive and the world economy to recover at an early date. The exhibition area is about 130,000 sqm in total, including the comprehensive exhibition held in the CNCC and the 8 thematic enterprise exhibitions in Shougang Park. Ministry of Commerce, Ministry of Industry and Information Technology, Development Research Center of the State Council, World Tourism Cities Federation etc. will hold 5 summit forums; CIFTIS participants will hold over 200 forums, conferences, promotional events and negotiation activities, on which 70-plus renowned enterprises such as Alibaba and Pfizer will release new technologies, new achievements, and new services. Besides, business inspection, investment promotion, cultural experiencing activities and other supportive events will also be available during CIFTIS for better engagement and more fruitful outcomes.

We sincerely invite governments, international organizations, industrial chambers and associations, and enterprise representatives of all countries and regions to join the 2021 CIFTIS. Together, we will create a bright future of cooperative development and mutual benefits.
